NATURE'S

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakeness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and host Powerful

S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digostion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.

Danderine

PROVE IT

Harr troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soll in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful. Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving notking for the hair to feed upon (a plant or even a tree would die under similar conditions.)

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair even discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent hottle is erough to convince you of its great worth as a hair growing and hair of the case of the convince of the great worth as a hair growing and hair of the case of the convince would the great worth as a hair growing and hair of the case of the convince would the great worth as a hair growing and hair of the great worth as a hair growing and hair Beautiful Hair At Small Cost

If You Have Rheumatism Let Me Send PATROLMEN ARE

50 Cent Box of my Rheumatism Remedy Free.

My Remedy has actually cured men and women seventy and eighty years of age-some were so decrepit that they could not even dress themselves. To introduce this great remedy I intend to give fifty thousand 50 cent boxes away, and every suffering reader of this paper is courteously invited to write for one. No money is asked for this 50 cent box neither now nor later, and if afterwards more is wanted I will furnish it to sufferers at a low cost. I found this remedy by a fortunate chance while an invalid from rheumatism and since it cured me, it has been a blessing to thousands of other persons. Don't be sceptical, remember the first 50 cent box is absolutely free. This is an internal remedy which goes after the cause of the trouble, and when the cause of rheumatism is removed have no fear of deformities. Rheumatism in time will affect the heart, so so do not trifle with this merciless affliction. Address enclosing this adv., JOHN A. SMITH, 5417 Smith Bldg., Milwaukee, Wis.

A Promise to Pay

Wolld you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire insurance policy is such a promise. Ought you to accept it without knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.
